DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2, 5, 8/2/1, 8/5/1, 8/1, 9/1, 9/2/1, and 9/5/1 are rejected under 35 U.S.C. 102(b) as being anticipated by Sameshima et al. (6,453,135). Sameshima et al. teaches an image carrier cartridge comprising at least one image carrier rotatably supported and exposure means 3 disposed at an exposure position for said image carrier, said image carrier cartridge being designed to be detachable relative to the body of an image forming apparatus, wherein said exposure means 3 comprises an organic EL light emitting element array 9 and an imaging optical system 10 disposed in front of the organic EL light emitting element array, and a light shielding member 3 for shielding at least: ultraviolet rays is provided around said exposure means. The light shielding member has a first light shielding member 3 disposed to cover said organic EL light emitting element array.

Allowable Subject Matter

3. Claims 3-4, and 6-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 10-15 are allowed.

Art Unit: 2852

Allowable Subject Matter

10. Claims 11-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 5-9 and 13-15 have not been treated.
